General Insurance Seminar

Connecting Today and Tomorrow

13 – 15 November 2016

Grand Hyatt Melbourne

Actuaries Institute

Internet of things…

Guy Russell

This presentation has been prepared for the 2016 General Insurance Seminar.
The Institute Council wishes it to be understood that opinions put forward herein are not necessarily those of the Institute and the Council is not responsible for those opinions.

"The internet of things (IoT) is a technical and business paradigm whereby devices equipped with contextual intelligence interact with their environment either passively (sensing) or actively (actuating), and also collaborate effectively with other smart objects, humans or applications on a network"
