A Carbon Neutral Convention

\$5.94 has been contributed from each delegate fee to offset CO2 emissions from:

- Delegate flights to and from Christchurch - offset by **Greenfleet** planting 1,063 native trees in New South Wales in 2008 to sequester 284.8 tonnes CO₂, revegetate the landscape and provide wildlife habitat
- All electricity used by delegates at the Convention Centre, Welcome and Gala Dinners and Delegate Hotels during Convention – offset by **Origin Energy's** purchase of 18 MWhs of 100% GreenPower accredited renewable energy to be supplied into the electricity grid
