## Nominee Statement

I'm standing for the 2019 Council Election because I'm passionate and proud of being an actuary. I genuinely believe that our profession represents a group of highly intellectual and kind-hearted people. I am also pleased to see the actuarial skills being well regarded in many practice areas and highly transferable.

Being elected to Council would allow me to give back to the profession. After being a GIPC member for four years, I am now ready for the next opportunity. Council will provide me a platform to serve the wider actuarial community with the ability to drive and influence the strategic future of us actuaries.

My desire to lead the profession reflects my passion and willingness to give back. I believe my multi-cultural background and strategic management mindset will add value to the Actuaries Institute's current strong governance, leadership and stewardship.

Should I be elected to the Council, my objectives are to:

1. define and strengthen the Actuarial Identity, defining not only what actuaries are, but also whom actuaries should become;
2. enhance member services, that provide a more tailored offering for each and every sub-group of members (by practice area, location, culture background, and demographic);

3. promote member participation, which ultimately influences, defines and supports the Actuarial Identity;
4. boost the Actuaries Institute's public profile, across industries, regionally, and globally; and
5. promote innovation within the profession, that breaks down the boundaries and redefines 'traditional' and 'wider field' actuarial practices to align with the Actuarial Identity.

I do recognise that being on Council is a big responsibility – it is a leadership role that facilitates the Actuaries Institute's future growth and success. I am committed to giving my time and energy to serve this position, and I am confident for our next journey together.
