

Insights – Super Policy Forum

Presented by: Ben Facer and Brad Jeffrey

Tuesday 11 December 2012
12.00pm – 2.00pm
Actuaries Institute
Level 7, 4 Martin Place, Sydney 2000

Back in July this year, the Institute sent a 37 page submission to APRA covering the following draft Prudential Standards: SPS 114 Operational Risk Financial Requirement, SPS 160 Defined Benefit Matters, SPS 220 Risk Management, SPS 250 Insurance in Superannuation and SPS 530 Investment Governance.

We understand that APRA intends to finalise and issue all the Prudential Standards in November (although they will not be formally registered and take effect until later).

This Super Policy Forum gives members the opportunity to hear about the content of the Institute's submission, how APRA has responded to our comments, what the final requirements are and to provide a forum for further discussion. **This session is a must for all superannuation practitioners.**

Ben Facer

Ben has been working in the superannuation consulting industry for almost 20 years, helping clients on all aspects of funds' operations including strategy, governance, actuarial and administration. In addition Ben has also been based in London and Singapore, consulting on retirement issues across Europe and South Asia.

Brad Jeffrey

Brad is a member of the Institute's Superannuation Practice Committee and also the Superannuation Risk Management & FCR Taskforce.

- Places are limited so registration is essential.
- A light lunch will be provided from 12 noon.
- The presentations will start from 12.30pm.

If you wish to join this session via dial-in please events@actuaries.asn.au for further details.

[Register online](#) or via email events@actuaries.asn.au by Tuesday 4 December 2012.
