
EXPLANATORY MEMORANDUM TO PROFESSIONAL STANDARD 406 UNSEGREGATED SUPERANNUATION LIABILITIES

March 2018

INDEX

1.	ABOUT THIS EXPLANATORY MEMORANDUM.....	1
2.	REASONS FOR CHANGE.....	1
2.1.	Changed Legislation	2
2.2.	Changed APRA requirements	2
2.3.	Changed PS400 in respect of Defined Benefit Funds.....	2
2.4.	Changed Actuaries Institute Policy.....	3
2.5.	Alignment with legislation.....	3
3.	ATO INPUT.....	3
4.	COMMENCEMENT DATE.....	3

1. About this Explanatory Memorandum

This Explanatory Memorandum has been prepared by the Superannuation Practice Committee (SPC) to assist Members in understanding proposed new Professional Standard 406 (Unsegregated Superannuation Liabilities) (PS 406).

2. Reasons for Change

PS406 is to replace mandatory Guidance Note 451 – Unsegregated Superannuation Liabilities – Certificates by Actuaries under Sub-sections 283(3) and 283(4) of the Income Tax Assessment Act (GN451).

In December 2016, a draft of PS406 was exposed to Members. While no feedback was received from Members, the draft was not finalised as the SPC continued to discuss the draft with other stakeholders and further changes to the draft became necessary to accommodate amendments to superannuation legislation that took effect from 1 July 2017.

The reasons for the updated guidance set out in this exposure draft of PS406, as compared with the guidance in GN451 (and including the amendments in both the December 2016 exposure draft and the current exposure draft), are set out below.

2.1. Changed Legislation

The December 2016 exposure draft incorporated amendments reflecting that, as part of the Simpler Super legislative changes which were generally effective from 1 July 2007, Part IX of the Income Tax Assessment Act 1936 (Cth) ("1936 Act") was rewritten and incorporated into Division 295 of the Income Tax Assessment Act 1997 ("ITAA 1997"). The changes applied with effect from the income tax year ended 30 June 2008.

Since the December 2016 exposure draft, further changes to PS 406 are required as a result of the legislative changes to superannuation that took effect from 1 July 2017. These changes introduced the new concept of 'retirement phase' superannuation income stream benefits to enable (i) the inclusion in current pension liabilities of qualifying deferred superannuation income streams and various other 'innovative income stream products' permitted under the new legislation, and (ii) the exclusion of account based transition to retirement pensions that are not yet in the retirement phase. Legislation was also updated in respect of Disregarded Small Fund Assets.

PS406 has also been updated to reflect the Australian Taxation Office (ATO) promulgated view that, where a fund's only superannuation liabilities at a particular time are in respect of retirement phase superannuation income stream benefits prescribed by the relevant regulations, sections 295-285(4) & (5) of the ITAA 1997 mean that the assets supporting those income streams are deemed to be Segregated Current Pension Assets at that time, even if this applies for only part of an income year.

Whereas under the previous legislation the ATO was empowered to specify requirements for actuarial certificates relating to pensions tax exemptions (which it did via Income Tax Ruling IT2617), no such power is provided under the present Act. To provide continuity (and as requested by the ATO) the requirements of IT2617 are now included in PS406 (with appropriate modifications).

2.2. Changed APRA requirements

APRA Prudential Standard SPS 114 – Operational Risk Financial Requirement establishes requirements for an RSE licensee to maintain adequate financial resources to address operational risk events that may affect its business operations. This requires some APRA regulated superannuation funds to hold reserves in addition to member liabilities.

2.3. Changed PS400 in respect of Defined Benefit Funds

PS406 reflects changes to PS400, such as the treatment of assets held within a fund to meet the Operational Risk Financial Requirement.

2.4. Changed Actuaries Institute Policy

Actuaries Institute Policy now requires mandatory guidance notes to be replaced by professional standards.

2.5. Alignment with legislation

Under ITAA 1997 section 295-390, in respect of the relevant investment income earned on unsegregated assets, the proportion of taxable income earned on those assets in a year of income that is exempt from tax is:

$$\frac{\text{Average value of current pension liabilities}}{\text{Average value of superannuation liabilities}}$$

PS406 is expressed in these terms to allow for the presence of surplus and reserves that are not part of superannuation liabilities.

3. ATO Input

The SPC continues its consultation with the ATO about the proposed PS406.

4. Commencement Date

It is proposed that PS406 will apply to certificates in respect of financial years commencing on or after 1 July 2017 which are signed on or after 1 July 2018.

Consultation

The SPC would appreciate Members' views on the proposed PS 406.

Comments should be sent, by the **close of business on Thursday, 28 February 2018**, to:
